DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Response filed 9/12/05 (page 12, line 15 - page 14, line 7), with respect to the rejection(s) of claim(s) 1-6 & 8-45 under 35 USC §102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC §101.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 30-45 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 30-45 are drawn to functional descriptive material NOT claimed as residing on a computer readable medium. MPEP 2106.IV.B.1(a) (Functional Descriptive Material) states:

Data structures not claimed as embodied in a computer-readable medium are descriptive material per se and are not statutory because they are not capable of causing functional change in the computer.

Such claimed data structures do not define any structural or functional interrelationships between the data structure

Art Unit: 2624

and other claimed aspects of the invention which permit the data structure's functionality to be realized.

Claims 30-45, while defining a computer program product, does not define a "computer-readable medium" and is thus non-statutory for that reasons. A computer program product can range from paper on which the program is written, to a program simply contemplated and memorized by a person. The examiner suggests amending the claim to embody the program on "computer-readable medium" in order to make the claim statutory.

In contrast, a claimed computer-readable medium encoded with the data structure defines structural and functional interrelationships between the data structure and the computer software and hardware components which permit the data structure's functionality to be realized, and is thus statutory." - MPEP 2106.IV.B.1(a)

Allowable Subject Matter

4. Claims 1-29 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter:

As noted above, Applicant's arguments, see Response filed 9/12/05 (page 12, line 15 - page 14, line 7), with respect to the rejection(s) of claim(s) 1-6 & 8-45 under 35 USC §102 have been fully considered and are persuasive.
